This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terminology "and pharmaceutically acceptable salts, esters, hydrates or solvates thereof" (claims 1, 8 and 16) is an improper Markush terminology. Such terminology as "or a pharmaceutically acceptable salt, ester, hydrate or solvate thereof" can be used to overcome the rejection.

The terminology "a second sugar moiety comprising" (claims 1, 8 and 16) renders the claims indefinite since it leaves the structural formula of the claimed compound open-ended i.e. the second sugar moiety is not limited to the one to three sugar units as set forth in the claims.

The prior art submitted by applicant has been considered and is cited to show the state of the art.
